What is PAUL?

- Integrated system to manage all areas of the university
- Central database
- Rich client front end for administrative tasks
- Web client front end for students and teachers
What is PAUL good for?

- Achieve one centralised platform for organisation, information and activities related to all matters of your studies

- Improve service for students
  - Online registration: avoid queuing
  - Online access to learning material, news, calendar, results of examinations...

- Improve service for lecturers and administrative staff
  - Supports administrative processes: efficiency
  - Supports planning processes: rooms, time tables, ...
  - Possibility of direct communication between lecturers and students via messaging components

Choice of a program / an area of specialization in PAUL

Electives

Study Informatik Master v2 (2009, i.d.F.V. 2013) for PaulS Test-EIM

Selections have already been made here

Alles online auf einer Plattform
Choice of an area of specialization in PAUL

After clicking „Select electives“ for „Specialisation area“ in step 4 on the previous slide:

Choose any one out of four
Choose an appropriate set of modules and register

Courses are chosen implicitly with registration to lectures

Choose one lecture per course and register.
(You may choose further lectures in the same course at later semesters)
System: Demo (registration to lectures only)

https://paul.uni-paderborn.de

Student: ptesteim

study: Computer Science Master
Thank you very much for your attention and have a marvellous time in Paderborn!

Feel free to ask questions now
Registration for lectures

The context of a registration to a lecture is the „path“ from the lecture to the root of the tree.

You have chosen the context by your choices as well as your (implicit or explicit) registrations to programs, specialisations, modules, and courses.
